MSC APPLIED MANAGEMENT

Degree: Master of Science (MSc/ Honours) Applied Management

Duration of training: 2 years (4 semesters)

Intake: Spring

The Master of Science Applied Management program, originally launched and validated in 2005, is designed for those who already hold a BA/BSc degree in Business or Economics-related areas and wish to deepen their knowledge and develop skills associated with a successful business or professional career.

The aim of the program is to prepare students to be managers able to perform effectively in a globally competitive and changing environment. This specialized two-year program delivered and taught in English, leads to an MSc degree in Applied Management.

THE PROGRAM AIMS TO:

- provide students with broader and deeper knowledge and skills to equip them for a career in diverse business organizations;
- develop the competence of students in applying business and management skills essential to practicing international management;
- develop those critical and analytical skills necessary in international management;

- develop critical and analytical problem-based learning to prepare students for graduate employment.
